1 PROJECT OVERVIEW: WESTRIDGE PARK

WHAT'S HAPPENING

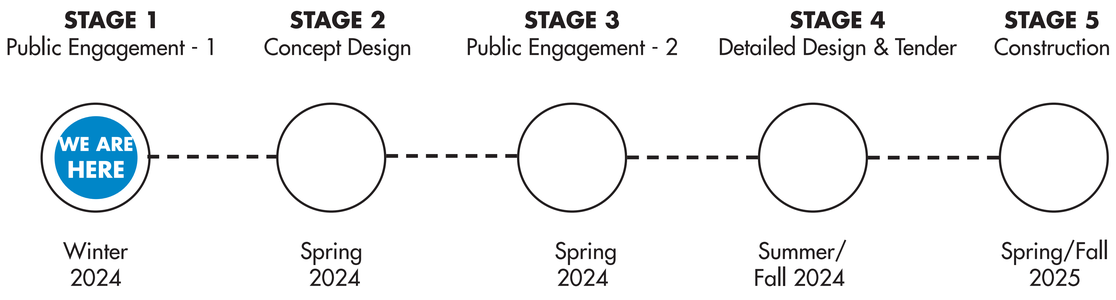

The City of Abbotsford is planning a new Neighbourhood Park in the Townline neighbourhood to serve the needs of the local area. The future park space consists of about 1.1 ha of relatively flat, undeveloped open space, and is located in the middle of a multi-family neighbourhood, next to Townline Hill Park and with views to the south.

Townline Hill Park is accessed separately from Blueridge Drive to the south and is a Community Park that includes a baseball diamond, fieldhouse buildings, a playground, a parking lot and trails that connect into the future park site and beyond.

The location of the future park site within the existing surroundings provide great opportunity to program the new park in ways that will take advantage of the viewscapes and complement the surrounding park and trail infrastructure.

As part of Stage 1 of Public Engagement, the Parks Planning team is seeking input from local residents to help inform how Westridge Park should be designed.
